Amendments to the specification

Please add the following after the background, before the Detailed Description:

---

**BRIEF DESCRIPTION OF THE DRAWINGS**

Fig 1 shows schematically an exemplary embodiment of the invention.

Fig 2 shows schematically a sensor system of the invention having a plurality of sensor suites.

Fig 3 shows schematically an embodiment of the invention having a more complex network of sensor suites.

Please change the third paragraph in the Detailed Description, on page 1, to read as follows:

But communications from the FSU to an NIU or a command post is through a low power narrow bandwidth channel which is most likely to be wireless but could be [[hand]] hard wired.
